

PRODUCT HIGHLIGHTS

**DEMAND
THE
GOOD
STUFF
FOR YOUR BUSINESS.**

ALL ABOUT THE GOOD STUFF

**To demand Kendall®
is to demand
dynamic. From**

**our GT-1® line to our heavy-duty products,
every grade is designed to provide exclusive
protection and extend engine life. Kendall's
Liquid Titanium® protection additive further
protects against engine wear, creating a
molecular shield of protection at critical
engine hot spots to reduce engine friction.**

**So don't settle for any run-of-
the-road motor oil. Demand The
Good Stuff. Demand Kendall
Motor Oil with Liquid Titanium.
It's What We're Made Of.**

MEET THE GT-1 TEAM

Our GT-1® line contains specially designed formulas to safeguard the engines in cars, light trucks and SUVs. Whether you've got a race car or a sedan, the nine GT-1 products are guaranteed to extend the life of your engine.

GT-1 Full Synthetics

Our premium-quality full synthetic motor oils, engineered to give drivers longer-lasting protection, lower oil consumption and enhanced fuel savings.

GT-1 Synthetic Blends

Our synthetic blend motor oils, providing improved resistance to oil thickening and fewer deposits than conventional oil, giving drivers a cleaner-running engine.

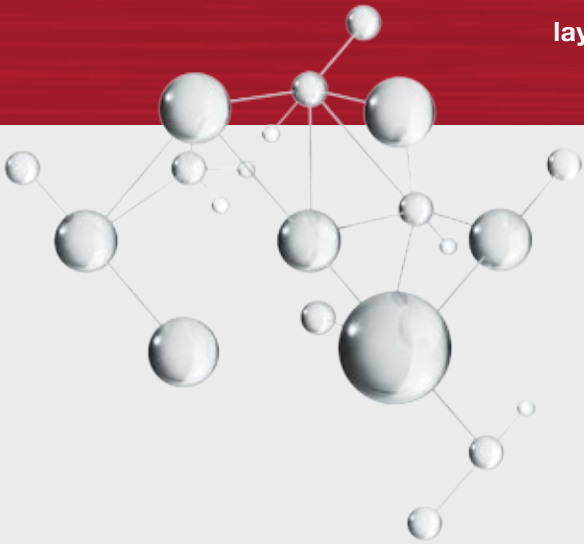

GT-1 Conventional Oils

Our conventional blends, uniquely qualified for use in older cars and competition engines, including both gasoline and alcohol-fueled racing vehicles.

THE MIGHT OF LIQUID TITANIUM

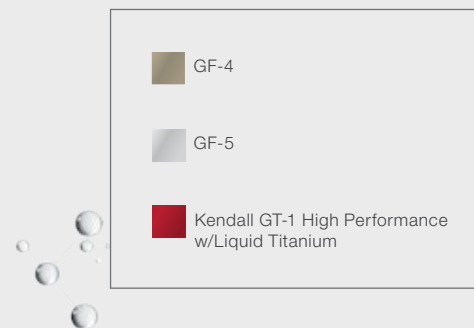

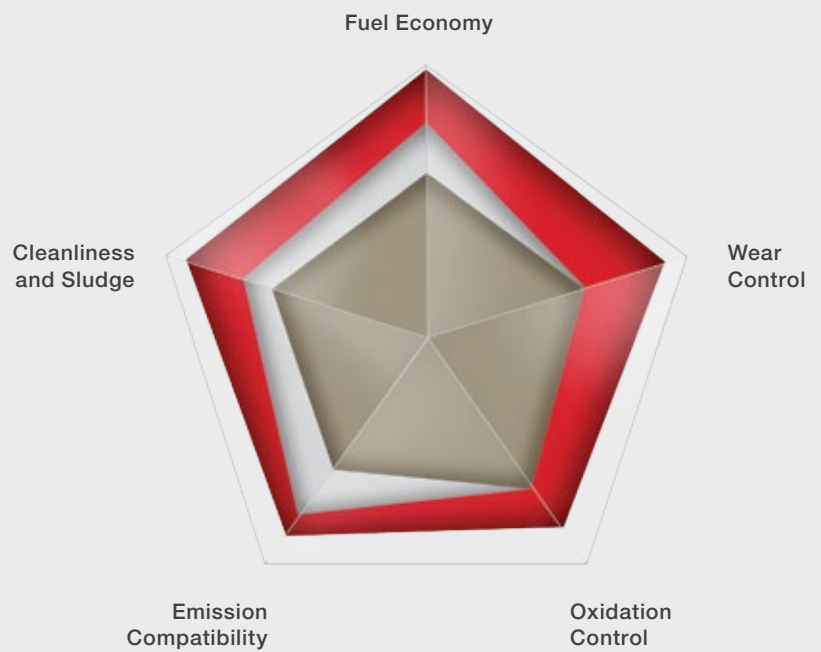

Titanium boasts the highest strength-to-weight ratio of any metal. In standard industry tests, Kendall® Motor Oil products bolstered by the Liquid Titanium® protection additive provide full-max protection in friction hot spots where scoring, pitting and wear normally occur. Post-testing analysis reveals the protective titanium layer remains embedded in critical engine parts long after use.

COMPARISON OF GF-5 SPECS AND KENDALL GT-1® OIL

In every test conducted, engines with Kendall's Liquid Titanium protection additive achieved greater longevity than those without. Major areas tested include:

- Wear control
- Fuel economy
- Cleanliness and sludge
- Emission compatibility
- Oxidation control

**MAKE
A SMOOTH
SHIFT TO
KENDALL**

Kendall's automatic transmission fluids are specifically engineered to ensure long service life and provide consistently smooth shift performance. Our ATF products are extremely shear stable, and demonstrate excellent oxidation resistance. Use Kendall® for maximum anti-shudder performance, excellent low-temperature properties and easier shifting in cold weather.

**WE HAVE A SOLUTION FOR 98%
OF ALL TRANSMISSIONS.**

VersaTrans® LV

Our full synthetic, low-viscosity (LV) transmission fluid approved for use in passenger car and light-truck automatic transmissions that require a Ford MERCON® LV or GM DEXRON®-VI fluid.

VersaTrans

Our premium-quality, synthetic blend transmission fluid specially designed for use in automatic transmissions that require a Ford Mercon® V fluid and other applications.

Classic ATF®

Our transmission fluid formulated for use in domestic and import transmissions that previously specified a GM DEXRON®-III H or Ford MERCON® fluid.

FORTIFY YOUR FLEET

Every one of Kendall® Motor Oil's heavy-duty products contains the pinnacle of lubricant power. These diesel oils have proven to resist viscosity and thermal breakdown under the most extreme conditions. They provide the utmost protection against oxidation and offer long-lasting wear and corrosion resistance.

Super-D EC

Our API CK-4 diesel engine oil for four-stroke cycle engines meeting 2007 and later EPA on-highway exhaust emissions standards. Can be used in on- and off-road vehicles in varying climates and service conditions.

Super-D® 3

Our high-quality CI-4 PLUS diesel engine oil. Available for use in a wide range of applications, including on- and off-highway diesel equipment, farm machinery, marine engines and mixed commercial fleets.

Super-D XA®

Our premium-quality, part synthetic API CK-4 engine oil with Liquid Titanium protection additive. Designed for use in new and older diesel engines.

TITANIUM IMPACT

Liquid Titanium® extends engine life through chemical bonding and provides full-max protection from oxidation, wear and corrosion. The Liquid Titanium additive contained in Kendall Super-D XA underwent a series of tests to demonstrate its titanium performance on and off the highway. In all cases, rig engines lubricated with Super-D XA saw a vast decrease in engine wear.

Super-D FE

Our premium-quality diesel engine oil designed for fuel economy benefits for engines built in 2017 or later, where FA-4 is specified. This motor oil is a synthetic blend API FA-4 and contains Liquid Titanium protection additive.

Super-D NG

Our high-quality, dispersant-detergent gas engine oil formulated with a higher level of antiwear additives than conventional low-ash gas engine oils to meet the enhanced wear protection requirements of diesel engines converted to natural gas service.

Super-D NG Applications

- Transit buses, school buses, delivery trucks and other vehicles equipped with slider-follower CNG or LNG engines

OEM-certified for:

- Cummins CES 20085
- Detroit Diesel DFS 93K216 (Series 50G and Series 60G engines)

Meets performance requirements of:

- John Deere 6.8L and 8.1L CNG engines

GOOD STUFF FOR GREAT YIELDS

At its roots, Kendall® offers a superior selection of oils, greases and fluids for all agricultural equipment including combines, tractors, skid-steer loaders and more. Every one of our lubricants is engineered to exceed the demands of agricultural equipment and ensure that it runs as smooth as the country wind all season long.

Superior protection is vital on a construction worksite. Our heavy-duty greases, transmission fluids, hydraulic fluids and other related products are all specifically engineered to extend construction equipment life and increase durability in all environmental conditions.

Hyken® 052 Farm Tractor Lubricant

Our multifunctional fluid formulated for use in farm tractors and other off-highway equipment requiring one lubricant for the transmission, final drive, wet brakes and hydraulic systems.

Powershift Transmission Fluid

Our high-performance multifunctional fluid developed for use in transmissions, final drives and hydraulic systems of off-highway equipment where a fluid meeting Caterpillar TO-4 performance requirements is specified.

MEANS FOR THE MECHANIC

In addition to motor oils, Kendall offers an extensive range of products incorporating nearly every type of lube, tube, gizmo or gadget a gearhead could ask for. Our Super Three Star® Synthetic Gear lubricant in particular is specifically formulated to provide long service life and extend gear life in automotive differentials operating under varying conditions of speed, load, temperature and torque.

VERSATILE MULTIPURPOSE GREASES

Manufactured with high-quality base oils, Kendall's greases provide maximum protection for a variety of uses. Our most popular, L-427 Super Blu, is designed for the lubrication of automotive and industrial equipment operating under heavy loads and at moderate to high temperatures, while premium options like our SHP® Grease are particularly recommended for equipment exposed to water contamination, saltwater corrosion and/or high temperatures.

Super Three Star Synthetic Gear Lubricant

Specially designed for long-drain service and extended warranty protection in passenger car and truck axles with hypoid gear sets.

NS-MP Hypoid Gear Lubricant

Designed for use in passenger car and truck axles with hypoid gear sets. Also recommended for use in some heavy-duty manual transmissions in trucks and buses.

L-427 SUPER BLU® GREASE

STRENGTH FOR SMALL ENGINES

Kendall® offers a variety of premium engine oils designed to protect and prolong the life of your 2-cycle or 4-cycle small engines. Our synthetic base stocks and special detergent package will keep your engines' variable exhaust valves and cylinder ports exceptionally clean to ensure crisp throttle response during all environmental conditions.

BROAD COVERAGE

Small Engine Applications

- Outboard marine engines
- Personal watercraft
- Motorcycles, scooters and all-terrain vehicles (ATVs)
- Snowmobiles
- Low-output chainsaws
- Lawn-care equipment (mowers, weed trimmers, leaf blowers)

Kendall 4T Synthetic MA

Our high-quality synthetic engine oil designed primarily for use in 4-stroke motorcycles, scooters and ATVs.

Kendall 2T

Our low-ash engine oil designed primarily for use in small, low-output (less than 50 hp) 2-stroke outboard engines.
